Sportage

We will move.

What moves you now?
 Give a fresh start to your static life
 and turn your longing into an exciting beginning.
 Sportage will lead you to newness, adventure, and festivity.
 Relieve your curiosity.
 The joy of discovery awaits you.

Discover your world

The all-new Sportage

Steel Gray Specifications may vary according to the trim, engine and options that are selected.

Snow White Pearl

The Futuristic Move

An open mind awakens new sensibilities.

Don't stay confined to your past.

Create and design your life according to your will
with Sportage by your side.

The all-new Sportage

Sportage embodies Kia's new design philosophy, Opposites United, which is a creative fusion of contradictory concepts. Sportage's simple yet dynamic design conveys a powerful presence created by the combination of nature's boldness with modern sensibility.

A 3-dimensional sense of volume and dynamic lines create synergy. A large, tiger-nose radiator grille with a black high-tech pattern and sleek LED headlamps project a futuristic look, while a sporty yet majestic body silhouette conveys a seductive sense of balance and dynamism.

04

The all-new Sportage GRAVITY

Distinctive details such as a voluminous radiator grille, bold front and rear bumpers, black glossy surround molding, and pillar garnishes reinforce the vehicle's powerful and dynamic image.

- 01. Radiator grille, grille upper garnish, front bumper, LED fog lamps
- 02. Door garnish, 19" full finish wheel
- 03. Rear bumper
- 04. Roof rack, surround molding, pillar garnish, outside mirror cover

A curved, panoramic display conveys information more easily and conveniently. State-of-the-art specifications such as a touch-type control system, that can switch between the infotainment system and air conditioning functions, and a dial-type electronic transmission offer an innovative automotive experience.

* Panoramic curved display: A high-tech display that connects a 12.3" cluster and a 12.3" navigation screen with a smooth curved surface.

Suede leather seats with a quilted pattern and a woodgrain interior that is beautifully lit with ambient light convey the elegant sensibility of a premium space.

12.3" navigation

A 12.3"-wide display allows the driver to see navigation maps and other vehicle information easily at once while giving access to Kia Connect and its state-of-the-art connected car services, including remote control and safety & security functions. Widgets and a split-screen display make the system even easier to operate.

※ Complimentary 5-year basic subscription to Kia Connect and 5-year extension to "light" service (SOS emergency dispatch, automatic notification of airbag deployment, monthly reports, traffic information).

Supervision cluster (12.3" full-size color TFT LCD)

A full-size color TFT LCD screen conveys diverse vehicle information with outstanding visibility. It uses differentiated graphics for each driving mode and changes the cluster screen to match the weather for additional pleasure while driving.

※ Weather-related functions require a Kia Connect subscription.

Kia Pay

Kia Pay is a hassle-free payment system that can be used to make payments, such as gas and parking fees, to affiliated merchants with a card registered in the Kia Pay app and a few taps of the navigation screen.

※ The list of merchants is continuously expanding. For an updated list, please consult the navigation system or the Kia Pay app.

Infotainment / Climate control system

A high-tech operation system integrates key infotainment and air conditioning functions into a single controller to simplify operation. A button in the center of the operation panel switches between the two systems, and all buttons other than those for functions that require intuitive operation, such as volume and temperature, are touch-based, similar to the latest innovative electronic devices.

After blow

Condensation that forms while using the air conditioner is dried to prevent unpleasant odors.

※ Applicable to the gasoline and diesel models

Dial-type Shift-by-Wire

A dial-type electronic controller with fine details offers a comfortable grip and conveys a sense of luxury.

A versatile interior designed to fit any urban or outdoor setting offers new experiences. Thoughtful, meticulously designed functions fill the interior, taking relaxation to a higher level.

2nd row fold-and-dive seats

Unlike regular seats, fold-and-dive seats in the 2nd row sink when folded, providing a bigger cargo space behind the front row.

※ Applicable to the gasoline and diesel models

2nd row one-touch folding

A remote folding system on the tailgate conveniently folds the 2nd row seats, making it easy to load and store cargo.

Smart power tailgate system*

The height of the opened tailgate can be set according to users' height or loading needs.

Smart Air Purification system (with micro dust sensor)*

Indoor air quality is monitored in real-time and automatically purified with a high-performance air conditioning filter as needed.

1st row seatback USB-C chargers (for charging)

USB-C ports in the seatback of front row seats improve compatibility with the latest devices and allow rear-seat passengers to conveniently charge their devices.

Hanger-type headrest / Seatback mini pockets

Hanger-type headrests make it easy to hang a coat while mini pockets conveniently store diverse accessories.

Center console & Large-capacity cup holders

Wireless smartphone charging system

Smartphones with wireless charging capabilities can be conveniently charged by simply placing them on the charging pad, eliminating the need for a cable.

※ A separate charging pad or phone case may be required depending on the smartphone model. It may not be compatible with models that do not support the use of adaptors.

The Impressive Move

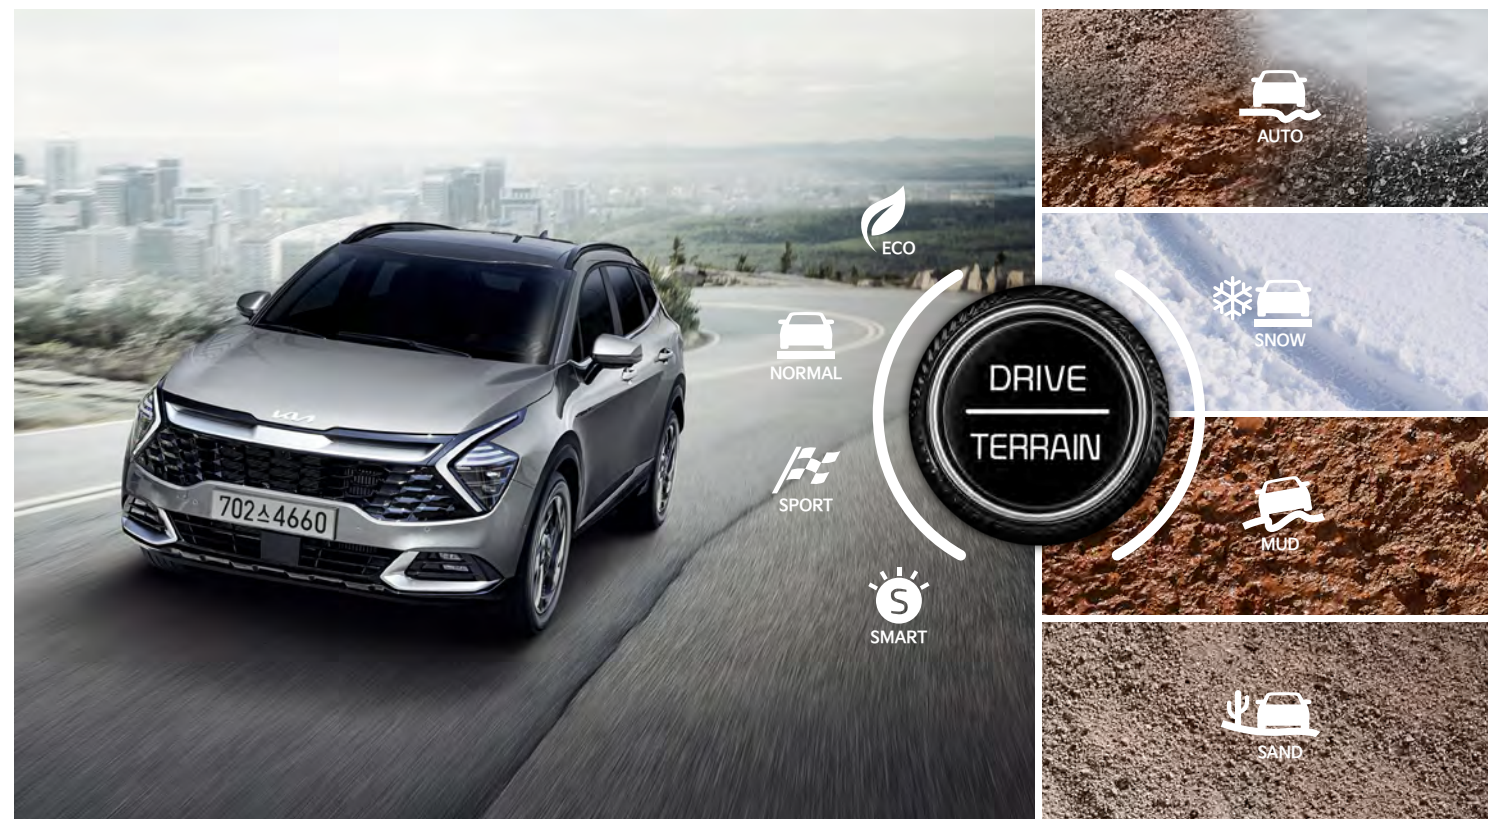

Creating a festival out of an ordinary day is an art of life_ Break away from daily routines from time to time and pursue little challenges. Sportage's differentiated driving experience will help you push life's boundaries.

A new platform and next-generation powertrain create a ride quality that is a notch above while delivering fuel efficiency and a powerful driving sensibility.

Smartstream G1.6 T-GDI			Smartstream D2.0		
180	27.0	12.5	184	42.5	14.5
Max. power (ps/5,500 rpm)	Max. torque (kgf-m/1,500-4,500 rpm)	Combined fuel economy (km/l) * Based on 2WD, 17" tires	Max. power (ps/4,000 rpm)	Max. torque (kgf-m/2,000-2,750 rpm)	Combined fuel economy (km/l) * Based on 2WD, 17" tires

An integrated drive mode control system, electronic 4WD system, and terrain mode (including auto mode) optimize on- and off-road driving performance.

Drive mode integrated control system*

Drivers can customize their driving experience to suit their preferences by choosing between Eco, Normal, Sport, and Smart modes.

※ The hybrid model offers Eco, Sport, and Smart modes.

Terrain mode (Auto, Snow, Mud, Sand)*

Traction, engine torque, and braking are controlled according to the terrain such as snow, dirt, or sand to optimize the driving experience. When Auto is selected, terrain mode will automatically choose between On-road, Snow, Mud, or Sand and deliver a stable drive.

※ On-road will be set to the drive mode that was most recently selected.

※ Applicable to the diesel 4WD, hybrid 4WD models.

Electronic 4WD system

Power is actively distributed between the front and rear wheels depending on the road surface and driving conditions to ensure stable turning and outstanding driving performance.

DRIVE WISE Hassle Free, Delightful Driving
Peace of mind for a more enjoyable and pleasant drive

Kia's brand name for ADAS technology that proactively analyzes driving conditions and assists drivers to provide the highest level of safety to drivers, passengers, pedestrians, and drivers of other vehicles alike.
※ ADAS : Advanced Driver Assistance System

Forward Collision-avoidance Assist (vehicles/pedestrians/cyclists/crossing vehicles)
Alerts the driver when the risk of a forward collision is detected such as sudden braking by the car in front, a parked car, or an unexpected pedestrian. Automatically helps to apply the brakes if the risk of a collision increases even after sounding an alarm and when there is a risk of colliding with a cyclist in front, an oncoming vehicle on an opposite lane while making a left turn.

Lane Keeping Assist
Alerts the driver if the car drifts out of the lane without a turn signal when driving above a given speed and helps to steer it back into place.

Intelligent Speed Limit Assist
Helps to prevent speeding by alerting the driver if the speed limit has been exceeded based on information from the front view camera and navigation system.

Blind-spot Collision-avoidance Assist
Alerts the driver when the turn signal is activated to make a lane change and there is a risk of colliding with a vehicle in the back in an adjacent lane. Applies the brakes automatically if the risk of colliding increases after sounding an alarm to prevent an accident. Also helps to brake the car if a vehicle is approaching from the back in an adjacent lane while steering onto the road after parallel parking.

Rear Cross-traffic Collision-avoidance Assist
Alerts the driver if a car is approaching from the left or right while pulling out in reverse and helps to brake automatically if the risk of collision increases even after sounding an alarm.

Navigation-based Smart Cruise Control (for safety zones and curved segments on expressways and highways)
Takes into consideration road conditions and helps to maintain a safe speed while driving on expressways and highways. Reduces speed before entering safety zones and resumes acceleration to preset levels thereafter. Similarly, reduces speed to safe levels before entering curved segments of a road and resumes acceleration to preset levels thereafter.

Highway Driving Assist
Helps to drive at a preset speed or safe speed while driving on an expressway or highway. Helps to maintain a safe distance from the car in front and the center of the lane.

Specifications may vary according to the trim, engine and options that are selected.

Remote Smart Parking Assist

Helps to park or pull out the car remotely from the outside by moving it forward or backward.
 ※ Works when the driver is within 4 m of the vehicle. The car can be moved up to 7 m at a time (maximum is twice or 14 m total)
 ※ Applicable to the diesel and hybrid models

Reverse Parking Collision-avoidance Assist

Alerts the driver if there is a risk of colliding with a pedestrian or object in the back while pulling out in reverse. Helps to brake the car automatically if the risk of colliding increases even after sounding the alarm.

Blind-spot View Monitor

Displays a rear, lateral view of the turning side on the cluster when the turn signal is activated.

Remote 360-degree view (surround view)

Enables the driver to check the location and see the surroundings of the vehicle remotely, even from far away, using the Kia Connect app on a smartphone.

Surround View Monitor

Displays the surroundings of the vehicle to assist in safe parking.

Safe Exit Assist

Sounds an alarm if an occupant opens a door and tries to exit the vehicle while a car is approaching from the back in an adjacent lane.

Rear Occupant Alert

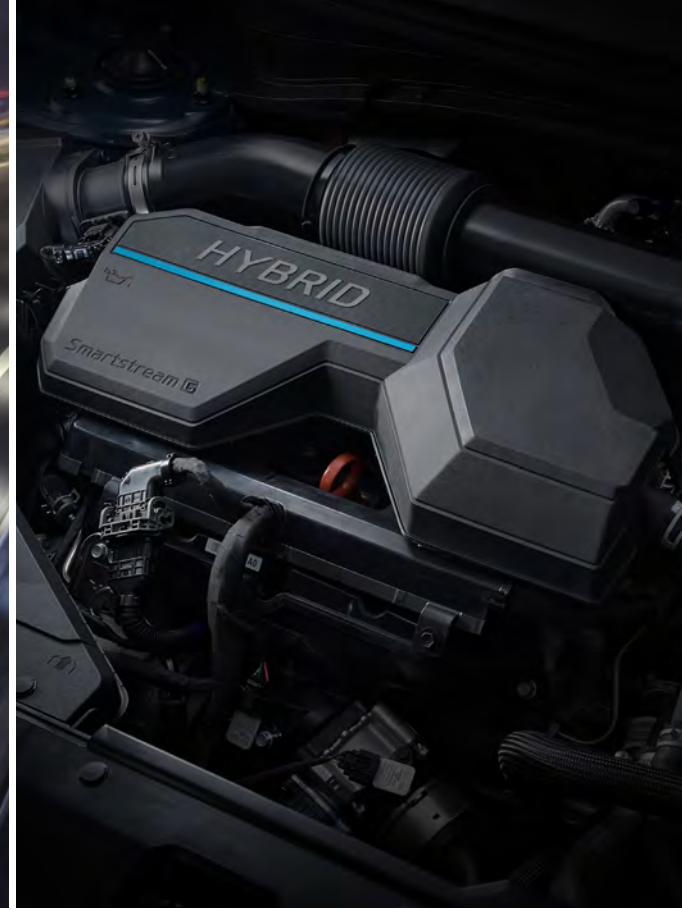

Determines the presence of rear-seat passengers based on the opening and closing of rear doors and sensors inside the cabin. Prompts the driver to check the rear seat by displaying a message on the cluster, sounding an alarm, and sending a text message through Kia Connect.

The all-new Sportage HEV

The Inspired Move

Inspiration from tranquil moments are a driving force of daily life. Emptying one's mind often arouses unexpected ideas. Find energy to fuel your day in the serenity of Hybrid.

E-Ride

The electric motor generates an inertial force in the opposite direction of the vehicle when passing over bumps, such as speed bumps, to reduce strain and provide a more comfortable ride.
 ※ Operates while driving straight at speeds between 20 to 75 km/h ※ Does not operate with sudden braking or acceleration, on sloped or slippery roads, and while using snow chains or towing a trailer.

E-Handling

The electric motor generates a proper amount of braking/driving torque that is needed to improve steering response and stability while turning.

Colors

Kia Connect

Kia Connect is Kia's connected car service for wireless navigation updates, smartphone-based remote vehicle control, and emergency alerts for a safer and more convenient vehicle usage experience.

Remote control

Cool or heat the interior of the car remotely in advance using a smart phone.

Safety and security

Emergency assistance through the Kia Connect center in the event of an airbag deployment or roadside emergency (24/7, 365 days).

Maintenance

Vehicle maintenance services such as breakdown diagnosis, driving information, and wireless updates.

Navigation

Optimal route guidance using real-time traffic information.

※ Kia Connect is the new name for UVO, Kia's connected car service. ※ Complimentary 5-year basic service and additional 5-year light service (SOS emergency dispatch, automatic notification of airbag deployment, monthly reports, traffic information).
 ※ For more information, visit Kia Connect's customer service center in Kakao Talk (search for "기아커넥트" through the search window and befriend).

Specifications may vary according to the trim, engine and options that are selected.
